Pompeii: The Exhibition at the Ronald Reagan Presidential Library and Museum, features over 150 authentic artifacts on loan from the renowned Naples National Archaeological Museum in Italy. These are not replicas, but rather original, 2,000-year-old objects that were preserved in the ash. These artifacts include wall-sized frescos, marble and bronze sculptures, jewelry, ancient Roman coins, and full body casts of the volcano's victims.

A simulated 4-D Eruption Theater experience allows visitors to experience the devastating impact Mount Vesuvius had on Pompeii, culminating in the reveal of full body casts of twisted human forms, asphyxiated by extreme heat and noxious gases.
