## Good to know:

- Morning safety briefings: There will be safety briefings each morning—you must attend them to get your wristband to get on the track
- There will be no fuel available at the track; the nearest gas station is about 3.5 miles away in Pahrump
- Food and Drink:
  - Lunch will be provided by the club for the days you are registered to drive; there is no café at the track, so get breakfast before you arrive
  - The club will provide bottled water during the event, but it is wise to bring your own preferred drinks and snacks
  - Alcohol and any other substance which impairs the ability to drive safely may not be used until track driving ends at the conclusion of the day (when the track goes “cold”), whether or not you are done driving early, or if your substance is legal or illegal, over the counter or prescription—this includes use by your non-driving guests
- Helmets must be worn during all skid pad exercises and while driving on track
  - Helmets must be motorsports-specific and rated Snell SA2015, SA2020, or have a current FIA rating
  - Motorcycle helmets are not allowed
- Even if you are not driving on Friday, we welcome you to show up to observe and get a ride on the track with one of our instructors
- Cameras, lap times, and data collection:
  - Cameras and smartphones must be in your pocket or securely mounted while driving; handheld devices are not allowed in the car
  - Exterior suction cup cameras require a separate securely attached leash
  - Data collection and in-car video is encouraged for post-session analysis, but lap times or lap timer screens (e.g., Corvette PDR, AiM Solo, etc.) may not be visible to the driver while on the track; if you have this equipment permanently mounted in your car please select an alternate display or hide the display
- Medical Info Emergency medical response will be onsite while driving is underway; all drivers should carry an ICE (In Case of Emergency) card or form on their person while participating in this event
